At Legion Hall Bloodmobile Will Be In **Grayling January 7th**

The Red Cross Bloodmobile will be in Grayling next Wednesday from 12 Noon to 6 P.M., at the American Legion Hall.

This is one of the most important Banks of the year, because supplies of blood at the Distribution Centers is low due to the few banks held during the Holiday Season.

Last Year the Good Neighbors of Crawford County responded magnificently and our January 1977 Bank was the largest one of the year.

Please mark your calendar, now, and arrange to come and give the most generous gift possible a pint of your blood to help preserve a Neighbor's

Let's make this Bank another record big one!

Babson's 1978 **Forecast**

in priority" at the Frederic Elementary School. In its the new facility located "just Grayling the school is thrivits new principal. David

With ten teachers, including Hawkins, directing the school's activities, the facility seems to be flourishing despite controversy voiced prior to this year's miliage elections concerning its occupants. Of the 231 students in attendance, sixty-two fifth graders are bused north to Erectoric from Grayling

I think we have some of the best teachers in our whole school district." Hawkins proudly stated about his staff. They all have an outgoing willingness to work with their students and do whatever else is required to assist them in the 'carning process "

The teaching staff in Frederic is made up of ten educators - Nancy Conoon, who teaches Kindergarten and first graders: Judy Packand first and second gradard, first and second graders: Mary Lippert, third grade: Carl Hatfield, fourth grade: Ron Olson, Alice Lattimer and Kathy Prause, fifth grades and Dave and Pat Hawkins, sixth grade.

There seems to be a warm feeling of togetherness present in Frederic School's atmosphere "Wolrd small," continued. Hawkins in a recent interview, "but as a result we develop more closeness; we seem to be able to get to know each other better and perhaps, t hope at least, a better educa-tional process follows."

Hawkins in his first year at the school's helm, is a seven-year veteran with the the past three years he was at the Middle Schr

by State Sen. Robert Davis Home Heating Help Is On The Way.

Some Michigan residents will have an easier time coning with their home heating halls this winter

The Legislature gave its final stamp of approval late last week to an energy cost assistance program which will help low-income and senior citizens pay this winter's heating bills.

About \$38 million was appropriated to cover the cost of the program. Some \$32 million of that amount will come from a welfare reimbursement the state received recently from the federal government

It is anticipated that 298,000 low-income households about half of whom will be senior citizens, will receive benefits under the program

Here's how the program will work for residents who pay their own heating bills: An initial flat benefit of

between \$100 and \$130, depending upon income, will be paid. Of that amount, 90 percent will go to the heating energy provider and 10 peront to the electrical provider of the electrical provider is not the heating provider). Then, a second benefit of between \$20 and \$70 based ipan consumption of heat ng energy, will be paid Thus, the minimum payment all he \$100 and the maximum \$200.

For example, a family logrearning less than \$4,000 i year will qualify for the maximum \$200 payment (an initial payment of \$130 plus in additional allotment of thile a family of four earning a maximum of \$7,300 II receive \$120 (the initial enefit payment only).

An elderly couple making more than \$2,000 a year be eligible for \$200. thile an elderly couple or individual with an income of no more than \$7,000 per year will det \$100.

Ecrithose households with hear rent is flat rate benefit J between \$60 and \$160. based upon income, will be and for electrical energy nsage:

The money will be sent directly to utility companies on celialf of eligible recipients and will then be credited to the family's account.

Only households with incomes within quidelines established under the program icontained in HB 4371) and with liquid assets valued at less than \$15,000 will be eligible for the program Specifically excluded from participation are current AF-DC and General Assistance recipients & students claimed as tax dependents on 1977 income tax returns

The State Departments of at Services and Treasury and be required to verify eligibility for the program Anvone who violates nes law is quilty of a misdemeanor.

If you thank you qualify for nis assistance program, you should contact your county Grown Greater office for an application form

GRAYLING, MICHIGAN - THURSDAY, DECEMBER 29, 1977

From Our

To begin the New Year on the right foot, we have to get rid of a couple of pre-Christmas notes we lotted down before leaving for Traverse City

First, we wish to acknowledge the receipt of the Christmas card from one of our (anonymous) avid readers — your concern shown over our loss is deeply appreciated ... however, it is quite evident, through your replacement you so graciously gave up, you have not attained the age of wishful thinking ... especially during Santa Claus time.

We have a friend, or possibly we should re-phrase this, we thought we had a friend here in our hamlet that just so happens to have a sauna in his igloo.

Now, for a few of the sports about town. Tuesday night is sauna night, and we normally partake in the sweat earlier due to our early rise Wednesday morning so we may get your favorite paper printed and on the street and in the mail.

For any of our readers who may not have nowledge of a sauna — one has to be a Finlander irst, or a Scandinavian, or been associated with either to appreciate the relaxation one gets.

Assuming you are unaware of a sauna ... let us it is a small room, with a stove, with a of of stones, which get very hot, and especially when .:ater is thrown on the rocks, and it is between 180 -700 degrees when you step in this little enclosure.

If you have followed this far, you have to realize that you enter the room with only what the Lord gave you have to throw water on the benches so that

With this in mind, we had just finished putting our Christmas paper to bed, we felt like a bit of relaxation. so we checked if the sauna would be on because of the Christmas holidays ... we were assured it would be

With this assurance we arrived and finding the normal lights on we proceeded to prepare for our expected half-hour of relaxation and let the problems of the day disappear.

We left all of our worldly goods on the table and filled the bucket of cold water, and with a wash rag in hand, stepped through the door expecting 180 degrees ... someone forgot the switch - it was room temperature .

Sometimes I wonder ... with friends like that, who needs enemies?

Just in case you were going to ask ... yes, we had heautiful Christmas with T. J. and Stef. their mominade, and also checked our California family and found Amber is doing right well

May the New Year bring only happiness into your God Bless.

Chapters 12 and 13

The method of interpretation of these two chapters is clearly given. "And there appeared a great wonder in heaven." Notice in your side reference of your Bible that the word wonder resid he translated "sign" or symbol" from the greek word "semeion" As we have always said, the Bible should be accepted literally unless we are instructed otherwise. Therefore we shall study the next two chapters in symbolism.

clarity we shall list all the symbols and interpretations be-tore we start. This will enable you to begin your own detailed study of these two chapters. Proof of the symbols will be given as we go 1. The woman represents Israel 2. The dragon represents Satun. 3. The manchild refers to Christ. 4. Michael represents the angels. 5. Israel represents the remnant of the seed of the woman, 6. The beast out of the sea represents the anti-christ as world dictator. 7.
The beast out of the earth

You will reliably recognize man, of these symbols as you read the context. The rest we chall

And she being with child chied, travailing in birth, and pained to be delivered." Bey 12.1.2

The identity of this symbol as issued is easily understood from Joseph's dream in Genesis 37.9.10. And he dreamed yet another dream, and told it his brethren, and said. Behold, I have dreamed a dream more, and behold, the sun and the moon and the eleven stars made obeisance to me. And he told at to his father, and to his bre-thren, and his father rebaked. him and said unto him. What is this dream that thou hast dreamed? Shall I and thy mother and thy beethren indeed come to how drizin ourselves to thee to

Service as satisfierers were Robert Garver, Alan Alma, Rex Alma, Rodney Miljure Stezen Weaver, Mark Milichell Chris Weaver and David Weaver.

Mrs. Lila Bradow Dies in Lansing Mrs. Lila Bradow, 78, of

Lancing passed away Christmar, morning at the Lansing General Hospital. She was born in Kalamazoo area June 18 1899 and was a former Grayling resident

Survivors include three cons Edwest of Lansing Roger of Mason and Bruce of Denver Colorado: 1 daughter, Mrs. Audrey Southwell of Lansing: and two sisters. Mrs. Lela Niederer and Mrs. Leona Papendick, both of Grayling, Her, husband, preceded her in death.

Funeral services were to he held at one o'clock Wednesday. December 28, at the Gorsline-Runciman Funeral Home in Lansing

Superintendent's Corner

By Fraser Dean

For the next few months there will undoubtedly be several occasions when parents and children will wonder if chool might be called att because of had road conditions This always gives use to the question of who makes the decision to call oil school and how it is arrived at.

Generally there are one of two conditions that require the closing of school. They are: (1) heavy snow, and (2) icy conditions. School is called off more often because of icy on slippery road conditions than heavy some secause the roads are generally more dangerous and cause the busses more problems. The amount of snowfall that creates dangerous doving conditions depends upon the amount of blowing and drifting that occurs

I am the one who must decide to close surpore obviously. I must make that decision after consulting with several parties. If on his way to work in the morning the bus sopervisor franks there may be dangerous road conditions. he consults with the county road commis. () and often the county sheriff's department to get their () inion on the condition of the roads. He then calls me and after considering the information he has received along with such things as the immediate weather forecast and snow or ice conditions in adjacent counties that I will already have eceived from the weather bureau and surrounding school districts. I decide whether or not to send the busses out.

After the decision is made it is telephoned to the local radio station, WWRM in Gaylord, and WHGR in Houghton Take. We also have a telephone fan out system for school comployees.

There are occasions when school is dismissed an hour early because of deteriorating road conditions. Generally this is not done because we believe roads will be more dangerous an hour later. It is done to insure that our busses will be off the roads before dark when the combination of shippery roads and poor visibility because of darkness and heavy or blowing snow will create a dangerous situation.

We did have one unique situation occur this year when hools were closed because of a power failure that left the buildings unlit and unheated for a nine hour period

Christmas

A blessed and joyous holiday season from the Almanack

Richard Milliman

CUITOR'S NOTE: The following Christmas-season Almanack is repeated from previous years].

"Here is a young man who was born in an obscure village, the child of a peasant woman. He grew up in another village. He worked in a carpenter shop until he was 30, and then for three years he was an itinerant preacher.

"He never wrote a book. He never held. an office. He never owned a home. He never put His foot inside a big city. He never traveled 200 miles from the place where he was born. He never did one of the things that usually accompany greatness. He had no credentials but

"While He was still a young man, the tide of public opinion turned against Him. His friends ran away. He was turned over to His enemies. He went through the mockery of a trial. He was nailed to a cross between two thieves While He was dying. His executioners gambled for the only piece of property He had on earth, and that was His coat.

"When He was dead. He was laid in a borrowed grave through the pity of a

"Nineteen centuries have come and gone, and today He is the central figure of the human race and the leader of the column of progress.

"I am far within the mark when I say that all the armies that ever marched and all the navies that ever sailed, and all the parliaments that ever sat, and all the kings that ever reigned, put together, have not affected the life of man upon this earth as has that one solitary life."

Of course I didn't write that article; I only repeat it from the original and unknown author. But it seems to me that in a relatively few lines, the story of

"One Solitary Life" helps to add perspective to our activities especially as we eniov the holiday season each year.

What we each seek is happiness, each in his own form, and happiness comes in many guises. As long as I'm quoting, let me endorse the formula of Ralph Waldo Emerson:

"A Happy Life is to laugh often and to to win the respect of intelligent persons and the affection of children ... to earn the approbation of honest critics and to endure the betrayal of friends ... to appreciate beauty ... to find the best in everything ... to give one's self ... to leave the world a bit better, whether by a healthy child, a garden patch, or a redeemed social condition ... to have played and laughed with enthusiasm and to have sung with exaltation ... to know even one life has breathed easier because you have lived

Yes, we need a credo, a purpose, a plan to our living. We need principles. truth, faith. We need prayer.

One of the most beautiful and touching prayers is the familiar prayer of St. Francis:

"Lord, make me an instrument of your peace ... where there is hatred, let me sow love . where there is injury. pardon ... where there is doubt, faith . where there is despair, hope ... where there is darkness, light ... and where there is sadness, joy.

"Grant that I may not so much seek to be consoled as to console ... to be understood as to understand ... to be leved as to love ... for it is in giving that we receive ... it is in pardoning that we are pardoned ... and in dying that we are born to eternal life."

Truly, words to live by

To all of you, a blessed and joyous holiday season from the Almanack

describe fluorescent lamps

Fluorescent More Varied Than You Think

by Merrily Baldwin

Extension Home Economist Good lighting, properly laced, makes a home cor fortable and easy to live in. It will also enhance furniture. textures and colors

Until recently most homeowners depended on the incandescent lamp (common light bulb) as the main source of lighting. But lighting with fluorescent lamps is tive and will save considerable energy.

The incandescent lamp is popular because it is the least expensive to purchase. adds a pleasant atmosothere; and like other lamns it does not deteriorate each time it is turned "on" and However, the incandescent lamp lacks effi-

Efficiency is determined by the amount of light produced (lumens for the amount of electrical power used), and the fluorescent lamp also provides from 12.000 to 20.000 hours of use, while a long life incandescent lamp only provides approximately 1 500 hours of usage.

The use of fluorescent lamps in the home has not really caught on, and one of the big reasons is a lack of knowledge the people have concerning the fluorescent lamps. People often do not realize that the lamps come in a variety of colors, it's true that fluorescent lamps sometimes give a cool crisp appearance but that's because they were not pur-chased correctly

Lal eche League Meeting January 5th
